

# Vault Items

There are four different types of items that can be created in Bitwarden. These are Login, Card, Identity and Secure Note. They are somewhat self explanatory but I will cover them: Login is for a login (website); Card is for a credit card or debit card; Identity is for an identity, this may be good to use for kids or identities such as business entities; and Secure note is very plain in the sense that it has a name and a box for a note. Below are the four different types of items that can be added, note the different available text boxes for each type of element.

Adding a new Element (4 different kinds):

Adding a new Login:

ADD ITEM

What type of item is this?

Login

Name

Folder

No Folder

Username

Password

Authenticator Key (TOTP)

URI 1

ex. https://google.com

Match Detection

Default match detection

Notes

CUSTOM FIELDS

New Custom Field

Text

OWNERSHIP

Who owns this item?

Save

Cancel

Adding a new Card:

ADD ITEM

What type of item is this?

Card

Name

Folder

No Folder

Cardholder Name

Brand

-- Select --

Number

Expiration Month

-- Select --

Expiration Year

ex. 2019

Security Code (CVV)

Notes

CUSTOM FIELDS

+ New Custom Field

Text

OWNERSHIP

Who owns this item?

Save

Cancel

Adding a new Identity:

ADD ITEM

What type of item is this?

Identity

Name

Folder

No Folder

Title

-- Select --

First Name

Middle Name

Last Name

Username

Company

Social Security Number

Passport Number

License Number

Email

Phone

Address 1

Address 2

Address 3

City / Town

State / Province

Zip / Postal Code

Country

Notes

Adding a new Secure Note:

ADD ITEM

What type of item is this?

Secure Note

Name

Folder

No Folder

Notes

CUSTOM FIELDS

+ New Custom Field

Text

OWNERSHIP

Who owns this item?

Save

Cancel

Editing an Item: the one thing to note when editing the item is to ensure you save it after you are done making changes. It is easy to get burned by clicking the X on the top right and then having to reset a password again.

EDIT ITEM

Name

Bookstack

Folder

No Folder

Username

admin

Password

.....

Authenticator Key (TOTP)

10

878 724

+ New URI

Notes

CUSTOM FIELDS
