

# Dashboard

This is your "homepage". It can be configured differently, but by default, it has the list of your projects, and the tasks that are assigned to you in those projects.

## Tasks

The tasks that are listed are configured based on the board that they are on. These are usually the tasks that are In Progress or otherwise waiting on you to do something with.

These tasks should be ones that you can jump in and work on anytime; they should not be waiting on anything.

The tasks have details that are roughly equivalent to what is displayed on the Task Card Detail on the board itself.

Revision #3
